

# Park Forest Fire Department & Illinois Fire Service Institute

Presents

Chicago Training Chief Pete Van Dorpe

&

Chicago Fire Department Coordinator of Research and  
Development James Dalton

## Topic

## High-rise/ UL Research

In this class, students learn about the challenges unique to high-rise buildings such as the mixture of commercial, high hazard storage, assembly and residential occupancies. Various firefighting problems are illustrated as they relate to fire department connections, methods of supplying standpipes or sprinklers, hose layouts and deployment, and command and control issues. Instructors will also cover the impact that recent UL research has had on the science behind firefighting in structures including high-rise buildings

When– October 5th, 2013—Class starts @ 8am.

Where– Freedom Hall– 410 Lakewood. Park Forest II. 60466

Cost– Free IFSI Cornerstone class

Register– Online @ [www.fsi.illinois.edu](http://www.fsi.illinois.edu) (Search high rise under course search)
